

Presque Isle has been a center of healthy activities throughout the grant period. Local partners: TAMC, Maine Winter Sports, Wintergreen Arts, UMPI have all hosted events, not to mention all the charity walks and charity golf events that have taken place. The Healthy Maine Streets initiative allowed us to add good infrastructure to keep all of this safe and accessible. The grant opportunity allowed us to focus on a health-minded point of view, enhancing and encouraging activities such as these. However unstructured it may have appeared, our partnership with the Presque Isle Downtown Committee was productive. On behalf of the city and the committee, I want to say thanks for the opportunity.
